

UNITED STATES WILL NOT TOLERATE FURTHER ARGUMENT ABOUT DETAILS

Warning Is Sent to General Huerta—No Time Limit Is Set for Answer

STAND ON FIRMS. DEMAND

Government Rejects Suggestion That American Ships Fire Simultaneously with Mexicans

REBELS CLAIM 3 VICTORIES

BULLETIN.

Mexico City, April 17.—The substance of the reply of the United States government to the demand of President Huerta that there should be a simultaneous salute fired by the Americans when the Mexicans salute the American flag was delivered verbally tonight by Nelson O'Shaughnessy, charge d'affaires to Senor Portillo y Rojas, the foreign minister. The reply is said, was unfavorable to any early adjustment of the situation. It is understood that the matter is being considered at a cabinet meeting tonight.

The cabinet meeting lasted three hours. It was impossible to learn its result from either the ministers or Charge O'Shaughnessy.

Washington, April 17.—The United States has warned General Huerta that no further argument about details for the salute to the American flag will be tolerated. Twenty-one guns must be fired to the stars and stripes in preparation for the arrest of American bluejackets at Tampico or serious consequences will follow. The Atlantic fleet in the meantime, continues on its way to Tampico to back up the demands of the Washington government.

No time limit has been set for an answer to the communication sent today rejecting the suggestion twice made by General Huerta that the guns from the Mexican shore batteries fire simultaneously with those of the American warships. Rear-Admiral Mayo's original demand calling for a salute of 21 guns, which he promised to return according to naval precedent, has been insisted upon.

Under no circumstances will the salute be given to Huerta government, but to the Mexican flag as representing the Mexican nation and no question of recognition is involved according to Secretary Tumulty who said that had the Huerta government intervened in the negotiations a desire that the salute be considered as recognition it would not have been considered for a minute. Acting Chairman Shively of the senate foreign relations committee who had a conference with Secretary Bryan tonight said there never had been any official suggestion of recognition in the negotiations and that no salute would be given under such a condition.

Stands on Mayo's Ultimatum

"The government here is standing on the original ultimatum of Admiral Mayo," he said. "In accordance with custom, the salute from Mexican guns would be acknowledged as Admiral Mayo set forth in his demand. But quibbling and twisting will not be tolerated by the United States in this matter."

Secretary Bryan did not know tonight whether or not there would be an answer to the American government's last communication—that is whether the next step would be the firing of the salute or another message on the subject. He did not expect word from Charge O'Shaughnessy before tomorrow. Until then the situation hangs in the balance, according to the opinion of administration officials.

Secretary Daniels, discussing the return of the salute, said he had consulted the general naval board which agreed that in all cases where salutes have been given they must be returned. Mr. Daniels spoke of the fact that Mexican gunboats, even though in the possession of the unrecognized Huerta government, were saluted when they passed American warships. He referred, too, to the recent visit at New Orleans of a Mexican gunboat which was not saluted by the shore batteries. The war department inquired of the navy department at that time about precedents and the army officer in charge at New Orleans was advised to return the salute.

The difficulties which arose over Huerta's request for a simultaneous salute created a situation of uncertainty and unrest throughout the day, not equaling in tension however, the feeling that prevailed when the decision was first reached to send the war fleets to enforce the American demands.

A number of high officials considered that Huerta had yielded the essential point and was merely trying to adjust the controversy so that his dignity before his people would not be lowered. At the cabinet meeting the situation was only briefly discussed the secretaries approving a message to Charge O'Shaughnessy for General Huerta and attention then turning to other subjects.

To Remain in Washington.

That the incident was not considered closed was indicated, how-

THINKS INTERVENTION INEVITABLE.

London, April 18.—In an article dealing with the Mexican situation the Spectator says that although the crisis may be relieved by President Huerta saluting the American flag it is convinced that President Wilson's policy inevitably will lead to intervention, which the sooner undertaken the better.

"An even worse prospect," the Spectator says in concluding, "would be that President Wilson should revert to his policy of watchful waiting and that anarchy and murder and the annihilation of property should continue—to be followed perhaps, by the massacre of foreigners—and that all the powers interested in Mexico should at last reluctantly be compelled to raise the most dangerous questions of the Monroe doctrine and the responsibilities and rights of the United States in Latin America."

ever, by the change in plans which both the president and Secretary Bryan made when the messages came showing Huerta's disposition to argue about details. The president will not go to White Sulphur Springs, W. Va., until tomorrow night and Secretary Bryan will not go to Florida until the whole question is adjusted.

Just when the salute will be fired even though an agreement is reached, is conjectural. Many officials think the majority of the ships of the Atlantic fleet will be on hand when the salute is fired at Tampico. Secretary Daniels said the orders which had been given to Rear-Admiral Badger were merely "to proceed to Tampico," though he had been acquainted with all phases of the situation, diplomatic and otherwise.

Today's developments in Mexico City where Huerta was reported as attempting to dictate the terms of the salute to the American flag, aroused in the minds of some legislators the belief that the provision of a salute as long as possible even to the extent of further defiance, in the hope of arousing patriotic sentiment against the United States and thereby reviving waning support of his own people in his administration.

Administrators Severe Reprimand.

Douglas, Ariz., April 17.—With a severe reprimand administered by Col. A. M. Guerrero, constitutionalist commander along the Sonora border to the captain of the aqueduct which deprived four Arizona military officers of their side arms Wednesday and the return of the swords today, the incident was closed.

Report Three Rebel Victories.

Brownsville, Tex., April 17.—Three rebel victories in the campaign against Monterrey were announced at constitutionalist headquarters at Matamoros tonight. At Cadereyta, thirty-five miles southeast of Monterrey, General Teodoro Elisondo reported that in one engagement his command had routed an entrenched federal force of 2,000 which sustained a loss of 100 killed and 400 wounded and "dispersed."

It was said that constitutionalists lost five officers and thirty soldiers. General Pablo Gonzales, commander of the east who is directing the campaign against the Nuevo Leon capital reported the other two engagements, in which the constitutionalists claimed to have pushed the federals still farther back toward Monterrey, the largest remaining stronghold in Northern Mexico.

"DOC" SIMPSON BUTLER HAS NARROW ESCAPE

Farmer Near Woodson Suffers Two Fractured Ribs When Team of Mules Becomes Frightened and Runs Away.

Simpson Butler of Woodson, better known as "Doc" Butler, was severely injured at 11:30 Friday morning as the result of a team of mules running away. Mr. Butler was returning home and while going through a gate at the single trees place, one of the single trees caught on the post. This frightened the mules and before Mr. Butler could take in the situation they had thrown him beneath the wagon and were beyond his reach. He fell in such a manner as to break two ribs. Winnie Kingsley was the first to see the accident, and she notified some neighbors who went to the rescue of Mr. Butler, finding him unconscious. Dr. R. R. Jones was called and in company with Geo. E. Staples, John Baxter, Jasper Shelton, they drove in Mr. Jones' car to the scene of the accident.

Mr. Butler was removed to the home of his brother-in-law, James Devore, where he was given medical attention. It was found that the wagon wheel had passed over Mr. Butler's body and that he had received a severe shock from the sudden fall. It is believed that his injuries will not prove serious.

The mules ran for half a mile before they were forced to stop. Aside from a few scratches the animals were not hurt.

RITCHIE DEFENDS HIS TITLE SUCCESSFULLY

WINS DECISION OVER HARLEM TOMMY MURPHY IN TWENTY ROUND BATTLE

Murphy Fights Courageously But Never Was Dangerous—There Was No Disputing the Referee's Decision at the End of the Contest.

Ringside, San Francisco, Calif., April 17.—Willie Ritchie, lightweight champion, defended his title tonight against Harlem Tommy Murphy of New York, in convincing fashion. Murphy fought a courageous, aggressive battle but never was dangerous and often was in distress himself. There was no disputing the referee's decision at the end of the twenty rounds.

Murphy might have been allowed one questionable round and perhaps two could have been given him as even, but the remainder were all Ritchie's by a wide margin. In the sixth, the tenth, the fifteenth and the twentieth rounds, Murphy was dazed and staggering. He reeled and clinched and covered up and leaned against the rope. Only his remarkable vitality and his unquenchable courage saved him from a knockout. Knocked through the ropes in the last round, he bounded to his feet again and came back with a splendid flash of daring but the round remained Ritchie's by a wide margin.

The battle went exactly as it had been predicted. Murphy made exactly the same sort of fight that Ritchie liked. The champion waited for the challenger to come to him and caught him repeatedly with straight lefts to the face and heavy left and right rights to the body. Repeatedly Murphy took blows delivered with full force that made him gasp and back up but after an instant's hesitation he was always able to crowd back with a brisk rally of short arm blows. In the last rounds the champion was crowding Murphy about the ring, measuring him with his left for heavy right crosses that still failed to carry a knockout.

Both men were in perfect condition. Murphy scarcely landed a clean single solid blow. Whenever he showed to advantage it was with a shower of short arm uppercuts and body blows. The greater part of the body blows the champion blocked. A few of the hooks he ducked and those that landed at no time troubled him. In revenge he was at ways able in any rally, to land three or four damaging smashes to the body and in the sixteenth he brought over a right cross which sent Murphy staggering on his heels into a neutral corner. But the challenger's cool head and long experience stood him in good stead. He rushed into a clinch and was able to protect himself until he had his wits about him again.

Murphy in the last round was a badly punished man. The champion bled a little at the mouth from the bruising he received in the clinches but left the ring otherwise unmarked. Expert opinion at the ringside agreed that Ritchie showed improved execution and better generalship than in any of his previous fights and added punishing power.

STRIKE IN KANSAS CITY DELAYS COMPLETION OF UNION STATION

KANSAS CITY, April 17.—Four hundred plumbers, electricians, gas fitters and marble finishers employed in the construction of a new union railway station here laid down their tools today when the building trades council ordered a strike as a protest against alleged unfairness on the part of one of the construction firms.

Until the strike is settled much of the work on the \$50,000,000 terminal project will be tied up and the opening set for May 15th, postponed indefinitely.

DEVELOPMENTS POINT STRONGLY TOWARD MURDER AND SUICIDE

GLEDDES, S. D., April 17.—Developments in the killing of W. H. Menzie and Miss Blanche Signal, whose bodies were found in the ruins of a lumber office here today, now point strongly toward murder and suicide.

The robbery theory was apparently shattered by the discovery that no money was taken from Menzie, a considerable sum being found in his clothing. Mr. Menzie was widely known in the state as a promoter of the farmer's co-operative idea.

INJURIES PROVE FATAL.

Ottawa, Ills., April 17.—Albert Wioezarek, twenty-one years old, died here today as the result of injuries suffered in an automobile wreck last night near LaSalle, Ills., three other persons were seriously injured when the machine turned over.

ISSUES BANK PERMIT.

Springfield, Ills., April 17.—State Auditor James J. Brady, today issued a permit to Phil M. Essespry, William F. Mues, Henry Becker, J. A. Foederer, E. L. Knebel, Alva Beck and Conrad and Prey to organize the State Bank of Pierron to be located at Millersburg. Bond county with \$25,000 capital.

AUTO OVER EMBANKMENT.

Joliet, Ills., April 17.—Mrs. Martin Shires was killed and her husband was seriously hurt when the automobile driven by her went over a twenty foot embankment today.

VETERAN CHARACTER ACTOR DIES IN SAN FRANCISCO

Arthur McKee Rankin Was Known to Theatre Goers All Over the World.

San Francisco, Cal., April 17.—McKee Rankin, the veteran character actor who was identified with Nance O'Neill for years in Shakespearean productions, died here today.

In the prime of his theatrical career Arthur McKee Rankin was known to the theatre-goers in all the English-speaking countries of the world.

He was of the old school of bold versatility, hesitating at nothing as an actor or producer. First and last Rankin probably made a large fortune, but his big earnings were lost in one theatrical adventure or another.

He began his stage career in the Civil War period and continued it actively for fifty years.

AUTOPSY PROVES KIRBY'S ASSERTION TO BE CORRECT

Tumor Is Found at Base of Brain of Chicago Banker Who Claimed He Was Insane.

Chicago, April 17.—A tumor at the base of the brain of Dr. William T. Kirby, former private banker, was found today by physicians conducting an autopsy on Kirby, who died here yesterday. Kirby, before his death requested that his brain be examined to prove his contention that he was insane.

Kirby's bank here closed Nov. 3, 1912, owing depositors about \$30,000.

Kirby was found a few days later in a private sanitarium and was declared insane by the county judge. These proceedings were re-opened by Federal Judge Goehs and ordered Kirby to produce \$20,000 missing assets and adjudged Kirby and his wife in contempt for failing to do so.

FORM SPRINGFIELD DIVISION OF OCEAN-TO-OCEAN HIGHWAY

SPRINGFIELD, Ills., April 17.—The Springfield - Christian - Terre Haute division of the Ocean-to-Ocean highway was organized here today. Delegates gathered from many cities elected these officers:

President—G. W. Hughes, Humes, Illinois.

Secretary-Treasurer—W. H. Conkling, Springfield.

Vice-president—Oscar Jones, Christian; Scott Burgett, Newman; H. S. Gebhard, Decatur; H. B. McVeigh, Springfield.

It was decided to route the road thence south fourteen miles into Paris. The original plan was to build the road direct from Tuscola to Paris.

RESTRAINED FROM PRODUCING ANY OPERAS UNTIL APRIL 1920

NEW YORK, April 17.—Oscar Hammerstein and his son Arthur, are restrained from producing either comic or grand opera in Boston and New York until April 26th, 1920, according to a decision of the appellate division of the supreme court today. The complaint against Hammerstein was filed by the Metropolitan Opera company and stated that Hammerstein agreed not to produce opera in Boston or New York for ten years if the Metropolitan would purchase Hammerstein's Philadelphia opera house for \$1,200,000.

SALE OF CHICAGO INTER-OCEAN IS POSTPONED

CHICAGO, April 17.—The sale of the Inter-Ocean newspaper company which was to take place tomorrow morning, today was postponed until April 28th at the request of counsel for the Central Trust company, trustees for the bondholders.

Federal Judge Carpenter in a decree embodied his decision of several days ago that the \$700,000 first mortgage bonds constitute a first lien on the property and may be applied on the purchase price of the paper when it is sold.

CONDUCTOR IS ACQUITTED.

Cincinnati, April 17.—William B. Boyer of Chicago, one of the two conductors of the Chesapeake & Ohio railway company of Indiana indicted by a federal grand jury here recently on charges of violating the interstate commerce law in accepting less than regular for the transportation of passengers between Chicago and Chicago was acquitted by the petit jury in the United States court today.

COUNTY FILES SUIT AGAINST RAILROAD.

Colorado Springs, Colo., April 17.—Suits to collect \$33,000 as penalty and \$5,000 damages for the bringing of the army of 165 unemployed into Colorado Springs last week was filed in the district court today by the county commissioners of El Paso county against the Denver & Rio Grande and Chicago, Rock Island and Pacific railroad companies.

ARGUMENTS ARE BEGUN.

Kook, Iowa, April 17.—Arguments were begun in the federal court here today on the question of the constitutionality of the Iowa blue sky law, which places the control and supervision of investment companies in the hands of the secretary of state and attorney general.

DIES FROM HEART FAILURE.

New York, April 17.—Paul Sigel, 55 years old, son of the late General Franz Sigel, the celebrated union officer in the civil war, died at his home here today from heart failure.

RESUME CONSIDERATION OF ANTI-TRUST PROGRAM

SENATE SUB-COMMITTEE HOPES TO COMPLETE TENTATIVE BILL SOON

Subject of Stock Watering Is Given Serious Consideration—Testimony In Canal Tolls Hearing Causes a Wordy Conflict Between Bristow and Witness.

FRIDAY IN CONGRESS.

Senate.

Met at noon.

Canals committee continued hearings on the repeal of the Panama tolls exemption and decided to call Colonel George W. Goethals.

Senator Gore introduced a bill to compel interstate railroads to establish joint through passenger fares not to exceed the sum of the locals.

Senator Shepard introduced a resolution to have the interstate commerce commission investigate relations between railroads and coastwise shipping interests.

Adjourned at 3:40 p. m., to noon Monday.

House.

Met at noon.

Private claims bills were considered.

Passed legislative, executive and judicial appropriation bill.

Debate begun on naval appropriation bill.

Adjourned at 6:15 p. m., until noon Saturday.

Washington, April 17.—In furtherance of the determination of the president that an anti-trust legislative programme be completed at this session of congress if possible, members of the senate inter-state commerce sub-committee today renewed deliberation on the subject with the hope of completing a tentative bill for the full committee in the near future.

The subject of stock watering, which is one of the stumbling blocks encountered by the committee has been given serious consideration. As a result the following section to be proposed for incorporation in the bill has been submitted by Senator Robinson of Arkansas who, with Senator Newlands, is working on the tentative measure.

"No corporation, joint stock company, or other form of business organization having capital or shares of capital stock hereafter organized, shall engage in commerce among the states, unless its capital or capital stock is paid in full in cash or in property, or contracted in writing to be so paid at a fixed time by responsible subscribers. If any such corporation, joint stock company or other form of business organization having capital stock proposes to accept property in payment of any subscription to its stock, said property must equal or exceed in its market value the par value of the stock paid for in property the market value or said property to be ascertained and fixed by the commission."

Support Proposed Repeal.

Washington, April 17.—Support for the proposed repeal of the tolls exemption clause of the Panama canal act was given today before the senate canal committee by representatives of the New York chamber of commerce who said their organization made up of representative business men had approved of repeal by an overwhelming majority.

Their testimony caused a wordy conflict between Senator Bristow opposing repeal and Edward E. Page, a member of the chamber as well as of the New York Merchants' association. After Mr. Page had declared that in his opinion the United States should repeal the exemption clause in order to avoid breaking a contract Senator Bristow asked whether the supporters of repeal could not be called traitors to America as well as the opponents could be called violators of contracts.

"Those are catch words used by demagogues," replied the witness, "but I do not intend to use any personalities. I do not believe the opponents of repeal have any right to question the loyalty of those on the other side."

Strikes Out "Mileage Allowances."

The house struck the time honored "mileage allowances" for congressmen out of the legislative appropriation bill today and provided for actual expenses of members to and from Washington to attend congress. The senate has yet to agree to the proposal.

MAKE TWO MORE ARRESTS.

Denver, Colo., April 17.—Two more arrests in connection with the kidnapping of the Rev. Otis L. Spurgeon here on April 5th, were made today when Michael Burke, an undertaker, and P. A. McLaughlin, a saloon-keeper, were taken into custody by orders of the sheriff. A total of seven arrests have been made in connection with the case, five others being released on bond. Spurgeon came to Denver to lecture. It is said, against the Roman Catholic church.

WOUNDS PROVE FATAL.

Los Angeles, Cal., April 17.—Bitten by a lion several days ago posing for a moving picture "thriller," Dr. William Warner Kirby, a member of the Paul Rainey's expedition to Africa and prominent in the circus world died today. His wounds were thought trifling at first but septic infection set in.

ARGUE ON WHETHER A PERSON CAN PROFIT BY HIS OWN CRIME

Unique Points Is Brought Out In Case of John E. Wall vs. Ray Pfanschmidt.

SPRINGFIELD, Ill., April 17.—Whether a person can profit by his own wrong or crime, and whether a murderer can inherit property of a relative he had slain in the unique point at issue in the case of John E. Wall vs. Ray Pfanschmidt, argued today in the Illinois supreme court by Attorney W. E. Lancaster, representing Pfanschmidt and Judge Carl E. Epler, representing Wall.

Ray Pfanschmidt was convicted in the Adams county circuit court of the murder of his mother, father and sister. It was alleged he murdered to gain possession of the Pfanschmidt farm and property. The circuit court's verdict was reversed by the supreme court on a writ of error and Pfanschmidt granted a change of venue.

The outcome of the case argued today may be made subject of legislation in the coming session of the general assembly.

The murder case figured in the last session technical points relative to terms of court having been subject to legislation.

THINKS LEONE WAS HOUNDED TO DEATH BY MEN WHO ROBBED HIM

NEW YORK, April 17.—Mrs. Gerolamo Leone today asked the police of Burlington, Iowa, to investigate the death of her husband, a prosperous New York wine merchant. Leone died in a hospital at Burlington last night and his wife believes he was hounded to his death by men who had robbed him.

On Wednesday Mrs. Leone received a telegram from her husband which said: "Stop payment on my bank books; they have been stolen from me."

Today she got word that Leone rushed into the Burlington police station last night shouting that he was being pursued by three men. He said that the men had accosted him on a train from Chicago and threatened to kill him if he did not cease injuring their wine business. Soon afterward he collapsed and died. His relatives believe that death was due to fright.

POLICE BELIEVE \$50,000 FIRE IS WORK OF AN INCENDIARY

ST. LOUIS, April 17.—Two fires which the police suspect were caused by an incendiary tonight did an aggregate damage of about \$50,000 to the Independent Lumber company at 2600 South Broadway and the J. T. Addis Wrecking company at 3300 Salena street and for several hours threatened to spread to the extensive brewery district and railroad yards.

Three fires were discovered within a few minutes of each other and only three blocks apart. As they were located in the heart of the brewery district all the available fire apparatus in the city was called to the scene to protect these properties.

WITNESS CONFESSES HE WAS PAID FOR TESTIMONY FOR GUNMEN

NEW YORK, Apr. 17.—Karl Dresner told District Attorney Whitman today the name of the man who he says paid him to be an eleventh hour witness for the four gunmen slayers of the gambler, Herman Rosenthal, before Supreme Justice Goff last Saturday. Detectives were sent out tonight to find the man named by Dresner, who is in the toms as a self-confessed perjurer.

The price Dresner received for his false story before Justice Goff was \$100 according to his reported statements to Mr. Whitman today.

WOULD REPEAL ORDINANCE.

Elgin, Ill., April 17.—As a result of an injunction issued by C. F. Irwin, circuit judge, restraining the city commissioners from awarding contracts for municipal light plants, initiative petitions were circulated today for the repeal of an ordinance passed October 22nd, at a special referendum election which authorized a bond issue of \$102,000 for building the plant.

"MYSTERY WOMAN" GUILTY.

Cape Girardeau, Mo., April 17.—Ella McClendon, known locally as the "mystery woman" was found guilty on each of four counts in an indictment charging her with using the United States mails to defraud by a jury in the federal court here today and was sentenced by Judge Byrd to the Leavenworth penitentiary for five years on each count, the sentence to run concurrently.

THE WEATHER

WASHINGTON, April 17.—For Illinois: Showers Saturday afternoon or night and probably Sunday, colder Saturday night and Sunday; fresh to strong south winds shifting to northwest during Saturday night.

Temperatures.

The current, maximum and minimum temperatures recorded Friday were:

	Current.	High.	Low.
Jacksonville	69	84	56
Boston	60	58	32
Buffalo	50	50	34
New York	60	64	38
New Orleans	74	84	62
Chicago	72	74	48
Omaha	56	66	48
St. Paul	60	80	66
St. Louis	72	74	54
Helena	46	50	34
San Francisco	68	76	52
Winnipeg	44	50	46

ATTEMPT MADE TO KILL NEW YORK EXECUTIVE

MAYOR MITCHEL TARGET FOR BULLET WHICH STRIKES COUNSEL POLK

Lead From Michael Mahoney's Revolver Comes So Close to Mitchell As to Scorch His Cheek—Corporation Counsel Polk Not Fatally Wounded—Would-be Assassin Is Apparently Irresponsible.

New York, April 17.—In an attempt to take the life of Mayor John Purroy Mitchell today, Michael P. Mahoney, an apparently irresponsible, elderly man, who later said he was a blacksmith out of work, fired into a group of three men seated in the mayor's automobile which stood at the east side of Clay Hall park. The bullet from his revolver entered the jaw of Corporation Counsel Frank L. Polk, who was sitting next to the mayor in the tonneau of the automobile and with blood spurting from his mouth Mr. Polk was taken into an ante-chamber in the city hall and afterwards to the New York hospital where it was said the wound would not prove fatal.

Mahoney shot at the mayor, he declared in the course of a disjointed statement extracted from him tonight because he felt aggrieved at the city executive's extravagant expenditures and because he was incensed at being turned back from the door of the mayor's room in the city hall on two occasions this week when he came to apply for a municipal job. Mahoney fired only one shot. Before he could fire a second time he was overcome by Detective George Nunn, who, in the capacity of chauffeur was adjusting robes about the men in the automobile. The mayor sat in the middle of the back seat with Mr. Polk on his right and George V. Mullan, the mayor's former law partner on his left. The bullet passed so close to Mayor Mitchell that the left side of his face was scorched. Standing within a few feet of Mahoney was Police Commissioner Arthur H. Woods who was waiting for the chauffeur to get into the car, intending to sit beside the driver after the latter was seated.

Within thirty seconds the city hall plaza and park row were flooded with a surging crowd and the police reserves were called out.

Mayor Questions Mahoney.

As soon as he had seen that Mr. Polk received medical attention Mayor Mitchell went to the police station and questioned Mahoney. "Why did you shoot at me?" he asked Mahoney.

The mayor seemed as calm as if nothing had happened. The prisoner's answer was incoherent and to the effect that he had nothing to say.

While the police were trying to learn his name, which he persistently refused to give, Mr. Polk was removed to the New York hospital. By this time the plaza was packed with a jostling crowd, some of whom cried:

"Where's the assassin? Lynch him!"

The automobile which waited on Park Row, was to take the mayor's party to lunch. In thirty seconds the car would have started. Just at that moment, Mahoney who had been standing on the fringe of a crowd not fifty yards away attending a noon meeting of the unemployed and the Industrial Workers of the World, saw that Mayor Mitchell with whom he had been trying to get an interview since last Monday, was within a few feet of him. As the mayor took his seat Mahoney wiped out a revolver from his coat pocket and shot at the executive. According to his own story told to the police commissioner when he was examined, Mahoney had tried to see the mayor on Monday but had not been able to get an interview.

His repulse at the doors of the mayor's office embittered him and when he came back Wednesday it was with the intention of killing the mayor, he said. For some reason which he could not give, he thought better of his purpose on this occasion and deferred the attempt at assassination until some other time.

In the several examinations given Mahoney today he appeared to be a man of weak mentality. Utility of whose protest against fancied individual wrongs and present social conditions had driven him to the verge of insanity.

Two letters were taken from his pockets, one addressed to Mayor Mitchell and the other addressed to Mayor Armstrong of Pittsburgh, Pa.

In these letters Mahoney appeared to be agitated most by the late issue of city bonds and the attempt to get Colonel George W. Goethals.

Among other things Mahoney told the police he was born in Ireland, that at one time he had been worth over \$100,000 and that he had gone heavily into real estate speculation. He had spent a number of years in Pittsburgh, he added and had lived in New Orleans. For the last ten years he had lived in this city. At one time during his examination he said he was sorry for what he had done. Mahoney will be arranged in the Tombs court tomorrow morning.

The previous attempt to assassinate a mayor of New York was made by James J. Gallagher, who shot Mayor Gaynor on August 9th, 1911. Gallagher's bullet found its mark and remained in the mayor's throat. Many believed that the wound hastened Gaynor's death.

Solve the servant question today.

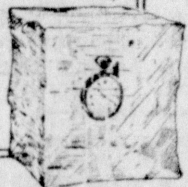

Why worry along under the present unsatisfactory conditions when you can obtain one of the reliable—on the job, "day in and day out" kind that never lie at a reasonable price.

Any of his present employers will give him the highest of recommendations.

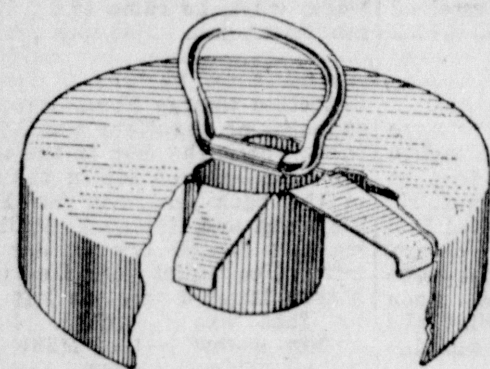

You can't get a better, more reliable servant than

THE HIGH COST FALLACY

Some people have a mistaken impression regarding plumbing. They believe there are two kinds—the cheap job of seconds with skimpy workmanship and the unnecessarily expensive quality installation.

Such reasoning is entirely without the bounds of fact. When building rest assured that your plumbing equipment can be what it should be—satisfactory in design, durability and price.

This we wish to demonstrate by going over your plans with you and showing the wide range of suitable "Standard" guaranteed plumbing fixtures which with our charge for installation will satisfy you as to quality and reasonableness of price.

TREES PLANTED AT DUNCAN PARK ON ARBOR DAY

Interesting Ceremonies Took Place Under High School Auspices—John J. Reeve Made Address.

The ceremony of tree planting at Duncan Park yesterday afternoon was a success, which was very pleasing. Trees were severally furnished by the freshman class of 1914, Russell McAllister, Paul Wells, Homer Reynolds, Joyce Masters, Miss Anna M. Brown, the capable teacher in the manual training department, the senior class, Harry Scott, the junior class, all of the high school.

There was a good attendance of the pupils of the manual training department, though few citizens were present, which is to be regretted. A short program was carried out, Miss Brown presiding.

Reading the governor's proclamation—Wells, Walker.

Reading—Planting trees—Walter Bland.

Reading—The Elms, Paul Wells.

Reading—The Oak, Harrison Dickson.

The trees were then formally planted to the park board, represented on the ground by S. W. Nichols, chairman, and Terrence Brennan, secretary. For the park board S. W. Nichols responded cordially, thanking the young people and their worthy teacher for the trees and the spirit shown and expressing a hope that the spirit thus exhibited would constantly increase and not in compliance with the governor's proclamation there would be an increased spirit of improvement in the way of trees and a growing determination to preserve and foster the birds of the forest in every way.

Representing the Chamber of Commerce were the president, J. J. Reeve, and Paul Fritchey, secretary. In compliance with a request by Miss Brown, Mr. Reeve made an excellent address, of which a few extracts are given.

The Value of Trees.

"I am indeed most happy to be here on this pleasant and auspicious occasion. The great responsibility of citizenship must soon devolve on you young men. You may not fully realize it now, but soon it will be yours and the great interests of the municipality will be in your hands. I am pleased to see these trees planted, for such work is the duty of all citizens. Our governor would not have issued his proclamation unless there had been good reason for it, for the planting of trees and the preservation of forest birds are matters of the greatest importance.

"If Jacksonville had no trees, property would not be worth more than 75 per cent of the prices it brings today. If a man wants to buy a place the matter of shade trees is one of great importance with him. I am well satisfied that the owners of homes in this vicinity would not have the trees removed from their places for thousands of dollars. Thus you will learn that tree planting creates value. The easiest money we get is by habits of economy. The spendthrift is the most foolish of all persons, while a dollar saved is of the greatest value.

The Duty of Citizenship.

"All persons who owe a service to the public, to the welfare of the community in which they live. The trees you plant today will not bring you any money, but they are for the public welfare and for posterity.

"Jacksonville is noted for its fine trees, which is the best reputation a city can enjoy. I hope you will acquire a disposition to labor for the welfare of the community. A man who runs down and derides the community in which he lives should get out of it. All should stand by the best interests of the place in which they live, stand for it, work for it and advance its interests and welfare in every possible way."

Miss Brown thanked the gentlemen present for their presence at the park and for the words they had uttered. She said the boys of the manual training department had done much unselfish work and possessed a good spirit of kindness and accommodation.

This closed the formal exercises. The trees were planted and a picnic followed, varied with delicious refreshments and thus ended a delightful and profitable occasion.

GET READY FOR TUESDAY.
Have your rubbish ready for Tuesday morning as wagons will not go on the same street more than once.
CLEAN-UP COMMITTEE.

WOMEN CANDIDATES TUNJER RESIGNATIONS

Women Voted to Run on Citizens' Ticket at Franklin White Village Clerk Who Refuses Them Request.

Another chapter has been added to the story of the coming Franklin election and this time the ladies do the talking. Following close on the filing of the objection petition relative to the candidates of the Independent ticket the women candidates on the Citizens' ticket, have tendered their resignations to the village clerk J. L. Hocking. The candidates are Mrs. Sallie Wyatt, president; Miss Bessie Hart, Miss Kamille Wright, Mrs. E. P. Patterson, trustees; Miss Grace Hill, clerk.

The resignation of the women caused the officials to look up the law on the matter and it was given as an opinion that such notice must be filed at least thirteen days before the election and that the petitions were not in legal form. With this data the clerk refused to take the names off the ballot so they will appear in due form next Tuesday.

As a sequel to the clerk's refusal the ladies have announced that now they are going in to win and so the race promises to be a hot one from start to finish. From reports, today there will be considerable electioneering in the village and what at first appeared to be a case of lethargy on the part of the women has now developed into a most energetic and determined effort.

DR. BLACK FAVORS GENERAL LAW.

Dr. Carl E. Black said in part at the recent court house meeting that he supposed that he was asked to say something because of the part he took some years ago in two campaigns for the adoption of the general law. That he said was when the matter was taken up by the High School Alumni association and he was chairman of the committee that had the matter in charge. These efforts were defeated by the opposition of the school board and all such efforts would probably be defeated in the same way, because of the direct power of the board and the teachers appointed by the board. The present campaign promises better because some members of the board favor the change and in addition to this the women are actively interesting themselves. There is doubt whether even an expert lawyer could explain the law under which we are at present conducting our schools, as we are partly under our old charter, partly under court decisions and partly under precedents. In fact we can hardly be said to have a school law. Among the reasons for adopting the general law are the age and uncertainty of our charter, which is out of harmony with the general school law and leaves us out of the system of the state excepting as we may adjust ourselves to it. The people of Illinois long ago decided that it was not best to issue special school charters. The general school law was framed and is endorsed by our best educators and has the benefit of all amendments which were proposed by the educational commission and others for improving and harmonizing the educational system of the state and keeping it abreast of the times in educational progress. We should do away with the antiquated and pernicious system of electing members of the board of education by wards. This city long ago voted to abolish the ward lines in municipal affairs and that should have applied to the members of the school board. One member from each ward savors too much of "private ownership" in education. Such a plan is bad when the best men are elected, but in the hands of indifferent or bad men it becomes almost intolerable. Under the general law our schools will be farther removed from politics and every member will be elected to represent the whole city and have an equal interest in all the schools. The general law will not be a cure all, but if adopted and actively supported by the citizens it will be a great step in advance. These are a few reasons why we should vote for the general school law.

WESTMINSTER MEMBERS HELD ANNUAL BUSINESS MEETING

Reports Indicated That All Departments of the Church Work Are in Excellent Condition—Social Hour Followed Formal Program.

The annual meeting of the membership of Westminster church was held Friday night. Reports were presented from the various departments and indicated that the past year has been one of satisfactory growth and development. Rev. L. H. Davis, was chosen moderator and W. T. Brown was the clerk. The reports were presented as follows:

Report of last annual meeting—W. T. Brown.

Woman's Home and Foreign Missionary society—Mrs. R. R. Stevenson and Miss Hattie Phillips.

Westminster Guild—Miss Katherine Barr.

Mission Band—Miss Jessie Holmes.

Ladies Aid Society—Mrs. J. H. Rayhill.

Sunday School—G. C. Guthrie and J. H. Rayhill.

Offerings to the Boards—W. T. Brown.

Y. P. S. C. E.—Miss Anne Stevenson.

Report on Deceased Members—Mr. Ensley Moore.

Board of Deacons—Prof. C. Spruit.

Board of Trustees—J. A. Ayers.

Various officers were elected as follows: elders, R. R. Stevenson, C. W. Taylor, Dr. C. H. Rammelkamp; trustee, William J. Brady; deacons, Prof. C. Spruit, H. B. Kamm, C. S. Massey.

In his sixth annual report Rev. Mr. Davis found much cause for encouragement. While the membership of the church is not increasing there is interest and activity in every department of the work. The pastor pointed out that numbers were not necessary to spiritual growth. Special mention was made of the material improvements made in the church during the summer and fall months and the fact that liberal contributions had been made to missions was also commented on.

In his report on deceased members, Mr. Moore made mention of L. R. G. H. Sanford, Mrs. Helen Barr Renwick and Henry Franz.

The business session closed with the singing of a verse of "Blest Be the Tie that Binds" and a prayer by Rev. Mr. Davis. Then came a social hour during which the ladies of the church served refreshments.

INDUSTRIAL ADVICES IRREGULAR; BUSINESS AS A WHOLE STILL QUIET

Warmer Weather and Excellent Prospects of Bountiful Crops Are Stimulus to Spring Trade.

New York, Apr. 17.—Bradstreet's tomorrow will say: Trade and industrial advices are still irregular with business as a whole still on the quiet. Warmer weather west and south, excellent winter wheat advices and prospects for full areas to be planted in leading crops are a stimulus to spring trade.

Dun's Weekly Review.
New York, April 17.—Dun's Review will say tomorrow: Adverse weather conditions accentuated the prevailing quietness in trade. Evidence of improvement are not absent, yet progress is checked by the backward spring. This regards distribution of seasonable merchandise and has caused accumulation of goods in some quarters.

Failures this week numbered 315 against 295 last year and 30 in Canada compared with 27.

TODAY—TWO BIG FEATURES

"Children of the Feud"

Vitaphone Drama. Special Feature in Two Parts.

It's a terrible and bitter mountain vendetta. Through the intermarriage of their children, forgiveness and peace are established and bloodshed wiped out for ever. Edith Story, Ned Finley and Harry Northrup are the principals.

THE MOTHER PENITENT

IN THREE PARTS—A supreme drama of the Golden West produced on Miller Bros., 101 ranch, featuring Baby Early and Elsie Albert. A gripping story of mother love cleverly enacted with the background of Indians, Cowboys, and stampeding cattle, produced on Miller Brothers' famous "101 Ranch." Pathetic in its appeal, gripping and powerful in its interpretation; steeped in the color of the west, surpassing any previous production in which the adorable child actress, Baby Early, and the vivacious Elsie Albert have been featured, this dramatic story will set your pulses throbbing with its atmosphere of wholesome excitement and bring the unhidden tear with its pathetic scenes of realism. Just as "all the world loves a lover" so it can be said that "all the world loves a mother," and the mother in this story is a wonderful character who pays for her folly by becoming an Angel of Mercy.—SEE IT.

A TRIP TO THE MOON—Lubin comedy.

Dr. H. C. Fortune, of the Arcadia neighborhood, has purchased a player piano for Mrs. Fortune. The purchase was made from the French & Sons Piano Company.

Charles Siebert of Fruitport, Mich. was in the city for a few hours Friday while on his way to visit his mother, who resides near Kansas City. Mr. Siebert, a former resident of Jacksonville, now holds a position as master mechanic for an interurban company in Michigan.

PLAN TO RAISE FUNDS FOR ORGANIZED SUNDAY SCHOOLS

Frank E. Mayer, Business Manager of International Association Meets Local Workers Friday Evening.

At a meeting of Jacksonville Sunday school workers, held at the Peacock Inn, Friday evening, Frank E. Mayer of Chicago, business manager of the International Sunday School association, gave out plans for the raising of a sum of money in this city for organized Sunday School work.

After a discussion of plans it was decided to make an effort to raise \$1,500 in Morgan County in the next three days, beginning this morning, and to that end an executive committee, consisting of the following men was appointed: A. A. Curry, Maurice B. Keplinger, Carl E. Weber, Albert Decalf, W. J. Brady, George T. Douglas, J. R. Watt and C. L. DePew, the last three being ex-officio members. Ten captains have been selected who will organize ten teams of five men each, including the captains, and they will visit the people to give them an opportunity to contribute toward the fund. On Monday evening a meeting will be held at the Peacock Inn when reports will be made and the campaign will close Tuesday.

In speaking of the campaign and the Sunday school work Friday evening, Mr. Mayer said substantially: "Organized Sunday schools include those affiliated with the World's International State, County, Precinct and City Associations and all of them will be benefited by the fund raised in this campaign, a certain per cent of the amount raised being apportioned to each of the different associations."

"The work of the World's Sunday School Association is largely missionary, that is it explores and establishes schools where none are at present; while the International devotes its time to the development of those schools that are already established in North America. Eight specialists in Sunday school work are devoting their entire time to this. They are Marion Lawrence, general secretary; W. C. Parce, adult superintendent; John L. Alexander, secondary superintendent; Mrs. Mary Foster Bryner, elementary superintendent; Dr. Franklin McElfresh, teacher training; William A. Brown, missionary superintendent; J. Shreve Durham, home visitation superintendent; Mrs. Zella Foster Stevens, temperance and Frank E. Mayer, business manager."

"It may be of interest to know that there are eighteen million enrolled in the Sunday schools of North America and the schools are growing at a net rate of 1,376 every twenty-four hours. There are two and one half million men in the Sunday schools."

"The State Association has the following workers: Hugh Cork, general secretary; Charles E. Schenck, field worker; Miss Wilhelmina Stooker, elementary superintendent. These state workers go over the field in Illinois, attend county institutes and other gatherings and give their entire time to intensive work. Illinois has 8,000 Protestant Sunday schools with an enrollment of over one million. There are 15,000 adult Bible classes in the state, 6,000 babies in the cradle roll and during the past year 1,300 conventions were held in the state."

"Many persons, both in organized Sunday schools and outside of them, do not know what benefit is derived from the organizations. On numerous occasions workers are called on to explain just what the benefit is. The organization pays the expenses of a committee, composed of men of different denominations, who meet and arrange the uniform and graded lessons. These lessons are sent out by the organizations to the different denominational publishing houses who arrange them and send them to the different schools. This is one of the great benefits derived."

"As to just what use is the money raised in the campaigns now being carried on, every department of organized Sunday school work will receive its share. A portion will be used to carry on a community institute which is to be held in Jacksonville several weeks next winter. In a campaign recently closed in Chicago \$100,000 was raised, \$2,510 in Oshkosh, Wis.; \$1,000 in Sheboygan, Wis.; \$1,348 in Neenah, Wis.; \$1,260 in Appleton, Wis.; and \$18,000 in Minneapolis, Minn. In Illinois campaigns are being carried on in Peoria, Springfield, Decatur, Bloomington, Rock Island, Moline, Elgin and Aurora."

SPECIAL SALE IN ALL DEPARTMENTS TODAY AT HEIMAN'S.

PLANTED ELM TREE AT WOMAN'S COLLEGE.

An Elm tree was planted yesterday on the campus at the Woman's college, under the auspices of the Senior class. The president of the class, Miss Hattie Clem told of the origin of Arbor day and of its work, both in the United States and in Illinois.

The senior class song was next sung followed by an appropriate address by President J. R. Harker. The exercises closed with the singing of the college song.

TRINITY CHURCH.

Mrs. O. F. Buße and Miss Ella Trubie left last night for Washington, D. C., to attend the national convention for the Daughters of the American Revolution. They were accompanied by Miss Jeanette Powell.

Not in Years Have We Offered Values Equal to These

Two of these specials are on Crepe Gowns—the other on Table Damask—and so very unusual are each of them we are giving the trio the widest publicity. Special displays are being made in each of our windows and we are particularly anxious that every woman in Jacksonville avail herself of the opportunities we are offering. Don't fail to see the windows.

The North Window Display

is of the Crepe Gowns. They are offered in some splendid new designs of cotton crepe and in colors of light blue, pink and white—all are beautifully trimmed with lace. Two grades—and each a bargain.

98c and \$1.45

The South Window Display

is of the Table Damask—and is a value never equalled in Jacksonville. It's a pattern cloth, ready for use. 58x86 inches in size. We want every woman to see this sure. While they last.

At \$1.19 Each

SOME LATE ARRIVALS—Silk Poplins, Moire Silks, Taffetas, Crepe de Chines, Chaddah Cloth, Tub Silks, Wool Crepes and Wool Challies—in all the latest colors and designs.

THE WOMAN'S HOME MISSIONARY SOCIETY.

Organization of Grace M. E. Church Met at the Woman's College.

The regular monthly meeting of the monthly meeting of the Woman's Home Missionary society of Grace M. E. church, took place at the Woman's college yesterday with Mrs. J. R. Harker and Miss Neville as hostesses. The leader was Mrs. Sarah Cocking. Reports of officers were heard and 106 dues were reported paid. \$1.40 for freight on song books sent to Arkansas was paid, and \$10.60 district dues was reported paid.

Miss Allie Marsh gave an interesting review of one of the chapters of the study book "The New America." This was followed by an instructive talk on "Where we Labor", by Mrs. J. W. Lowdermilk. A jubilee offering to help in the indebtedness of a negro school building erected in the south was ordered paid to the treasurer. Mite boxes were ordered brought to the next meeting. A committee consisting of Mrs. J. W. Lowdermilk, Mrs. Lucian Smith, Mrs. F. P. Dawson was appointed to select objects for next year's philanthropy. A social hour followed the business session and light refreshments were served. The society will meet the third Thursday in May with Mrs. Marshall and Mrs. Kennedy as the hostesses.

ANOTHER SHIPMENT OF PHIPPS CELEBRATED HATS JUST RECEIVED AT HEIMAN'S.

FUNERAL NOTICE.

Funeral services for Elizabeth Hildegarde Ewert, daughter of Rev. and Mrs. Arthur Ewert, will be held at the residence of W. R. Hucksby, 846 West State street, this morning at 10 o'clock. Interment will be made in Diamond Grove cemetery.

EDWARD R. SIEBER CALLED BY DEATH

PIONEER BUSINESS MAN ANSWERS FINAL SUMMONS.

Succumbs to Stroke of Apoplexy Which He Suffered Last May—Deceased Was Born in Germany 86 Years Ago.—Funeral to be Monday Afternoon.

Edward R. Sieber, one of Jacksonville's oldest business men, passed away Friday evening at 7:15 o'clock at Passavant hospital, at the advanced age of 86 years. Mr. Sieber had always been in robust health until last May, when he suffered a stroke of apoplexy at his office, on East Court street. At that time when he fell he struck his head against something, and his condition was such that he had to be assisted to his home, 712 North Main street. He was ill for several weeks but finally got well enough to come down town and was in his shop at times. Six weeks ago he became very ill and he was taken to Passavant hospital, where his condition has been critical. He elapsed into unconsciousness last Tuesday and had never recognized anyone since that time.

Mr. Sieber was born in Stargard, West Prussia, Dec. 23, 1827. He came to America in 1854 and landed at New Orleans. In the old country he had learned the trade of a gunsmith and when the Civil War broke out he secured a position as inspector of fire arms for the Confederate army. He travelled practically over the entire south while in this work.

He came to Jacksonville in 1865 and opened a shop on West State street, and later moved to a place on North Main street. This 75-year-old man moved his place of business to 209 East Court street, where he has since remained.

Mr. Sieber was married to Miss Catherine Bardill in Nashville, Tennessee in 1861. Mrs. Sieber is 76 years of age and survives her husband. He leaves also the following children: G. A. Sieber, E. Albert Sieber, Edward T. Sieber and Carl F. Sieber, all of Jacksonville, and Mrs. Minnie Buettner of East St. Louis. Mr. Sieber was the youngest of a family of seven children and he has one sister living in Germany.

For nearly a half a century Mr. Sieber has been in business in Jacksonville and was one of the city's pioneer merchants. He was an expert in his line of work and there was nothing too intricate for him to do. He possessed an unusual amount of industry and it mattered little what the weather was or other conditions, he was always at his shop each morning on time, faithful to the duties which fell to him. He was a man of unusual strength and had never known a sick day until last May when he became ill in his place of business. He was a broad reader and deep thinker and there was scarcely a topic of the day, either in home or foreign news, that he could not converse about in an intelligent manner. Not only was he a man of industry, but he possessed a disposition to be of assistance to any who needed his help, and his life ever commended itself to his fellow citizens.

He was a member of the Lutheran church, but for a great many years had attended the German Methodist church. For over fifty years he and his devoted wife have lived happily together, for a great many years making their home at 712 North Main street.

The remains were taken to Reynolds undertaking parlors and later removed to the home of his son, Albert Sieber, 851 North Prairie street, where funeral services will be conducted Monday afternoon, in charge of Rev. Frank Gruenewald. Interment will be made in Jacksonville cemetery.

Be comfortable and respectable with Knoles' clothing.

SOCIAL EVENTS.

The Woman's Home Missionary society of Centenary M. E. church met Friday afternoon with Mrs. Horton at 348 North street. The subject was "The What of Immigration" and the leader was Mrs. G. W. Flagg. There was also an instrumental solo by Mrs. Hyer and a vocal solo by Mrs. Glossop. Refreshments were served.

Mrs. George E. Matthews entertained the members of the Guten Zeit club at her home on Webster avenue last night. Some elaborate refreshments were served with the Peacock Inn management as caterers.

The entertainment given Thursday night at Brooklyn M. E. church proved quite successful. Miss Beulah Hart gave two readings, Miss Fern Hartsock and Miss Alice Herron, students of the Woman's college, gave respectively a vocal solo and piano solo and Miss Nina Wright gave a piano solo.

IN STERLING LIVES A GIRL

Who Suffered As Many Girls Do—Tells How She Found Relief.

Sterling, Conn.—"I am a girl of 22 years and I used to faint away every month and was very weak. I was also bothered a lot with female weakness. I read your little book 'Wisdom for Women,' and I saw how others had been helped by Lydia E. Pinkham's Vegetable Compound, and decided to try it, and it has made me feel like a new girl and I am now relieved of all these troubles. I hope all young girls will get relief as I have. I never felt better in my life."—Miss BERTHA A. PELOQUIN, Box 116, Sterling, Conn.

Massena, N. Y.—"I have taken Lydia E. Pinkham's Vegetable Compound and I highly recommend it. If anyone wants to write to me I will gladly tell her about my case. I was certainly in a bad condition as my blood was all turning to water. I had pimples on my face and a bad color, and for five years I had been troubled with suppression. The doctors called it 'Anemia and Exhaustion,' and said I was all run down, but Lydia E. Pinkham's Vegetable Compound brought me out all right."—Miss LAVISA MYRES, Box 74, Massena, N. Y.

Young Girls, Heed This Advice.

Girls who are troubled with painful or irregular periods, headache, dragging-down sensations, fainting spells or indigestion, should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound.

Greatest of All Human Blessings

The most wonderful thing in the world is love expressed in the helpless infant. And among these aids and comforts for expectant mothers is the well known "Mother's Friend."

This is an external application to enable the abdominal muscles to become more pliant, to expand naturally without undue pain from the strain upon cords and ligaments.

In almost every settled community are women who have enjoyed the blessing of this famous remedial and helpful embrocation. Their daughters have grown up to learn of its splendid assistance.

Applied as directed upon those muscles involved it soothes the fine network of nerves with which all the muscles are supplied. Thus a great share of the pains so much dreaded may be avoided and the period of expectancy passed through in ease and comfort.

Anything that adds so much comfort must be counted as a blessing indeed. In a little book sent by mail much useful information is given to inexperienced mothers. It tells how to use "Mother's Friend" and how to avoid caking breasts. It has been prepared in our laboratory for over four years and is known favorably to most druggists everywhere. Get a bottle to-day and write for book to Bradfield, Regulator Co., 509 Lamar Bldg., Atlanta, Ga. Be sure to ask for and see that you get "Mother's Friend."

Do not accept a substitute. What is said herein of "Mother's Friend" is but a repetition of the thoughts expressed by thousands of happy mothers who have successfully used this splendid external application.

THE KEELEY INSTITUTE, Dwight, Ill.

MR. LIPPINCOTT EXPLAINS SOME MOOTED QUESTIONS

It would vex the soul of a saint, I think, I am not familiar with saints, but I am saintly enough to hate a lie, when the other fellow tells it; it would vex a saint to see the misrepresentations made about this change of the board of education.

We are told that we must not vote for the change in the method of electing the board of education because we will thereby precipitate a bank fight over the deposits. Why, unless your soul the bank fight is on. And you will have the same bank fight at every election whether you make the change or not. The moment the bank having the deposits sends a possible change in the deposits the friends of that bank will be rallied to defeat the change.

Now the commission form of government is in the saddle. The city council appoints the city treasurer. Hence you may know without asking that the city council, the city treasurer and the bank where the city treasurer keeps the deposits, together with all the friends they can rally will be and are actively, though covertly, seeking to defeat the change. It is stuff and nonsense to talk of bank fights. Just as sure as a dog will snarl and bite if you try to take away his bone, just so sure the banking interest affected will oppose a change in the deposits. This will bob up in every election where a change in the persons endanger a continuation of the deposits. I am not complaining that this is so. I am complaining that such an argument as that a change in the method of electing the board of education will precipitate a bank fight should be used. It is not true. The bone is in the ring and the fight for it is going on. The contest is a fixed fact in human nature and does not depend upon the result of this election.

Fear is expressed that the teachers will be called on to pass an additional examination. This is shaken in the faces of the teachers as though to intimidate them. It reminds me of a story told by Col. Ingersoll. If, said he, we have a free for all race and various horses are entered for the race and finally in comes a colored boy with a mule, what horse will object to having the mule in the race? Will the thoroughbred racer, keen for the contest and sure to be among the leaders? No sir. It will be the hindmost horse that feels the breath of the coming mule. Teachers afraid of a reasonable examination as to their fitness for the particular subjects to be taught by them? No sir. The fraids will be only those who hold positions by virtue of favoritism and not by virtue of ability.

Over and over you hear the changes rung on the assertion that we will lose title to our school property. This is not true in any sense that will affect the complete authority of the board of education over the school property. The school law provides that the board of education shall have all the powers of school directors, among which: Chap. 122, Article V, Sec. 27: "Tenth—They shall have the control and supervision of all school houses in their district, and may grant the temporary use of school houses when not occupied by schools for religious meetings and Sunday schools, for evening schools and literary societies, and for such other meetings as the directors may deem proper."

Same Chap. and Article VI, Sec. 10: "The board of education shall have all the powers of school directors and in addition thereto and inclusive thereof they shall have the power and it shall be their duty: Fourteenth: To establish and promulgate all such by-laws, rules and regulations for the government and the establishment and maintenance of a proper and uniform system of discipline in the several schools, as may in their opinion be necessary."

"Fifth—To buy or lease sites for school houses with the necessary grounds." (Then follows a proviso that no such purchase may be made or school house built or moved unless authorized by a vote of the people.) Sec. 13: "All conveyance before a levy can be made to the township trustees in trust for the use of schools, and no conveyance of any real estate or interest therein used for school purposes, or held in trust for schools, shall be made except by the board of trustees, upon the written request of such board of education."

There you have a simple naked trust. The township trustees have nothing to do in the matter except to sell and convey in conformity with the statute pointing out the method, at the request of the board of education. No self-respecting attorney will for a moment contend that the board of education will be hampered excepting to the extent that the people of the district have opportunity to vote, and must vote the authority before a levy can be made for buying or building and perhaps, conveying. The trustees of the township have not a word to say until requested to convey. Then they have no choice but must convey.

Another scare crow is the old-time howl of the first ward. In former contests, when the city was divided into Republican and Democratic, the first ward was strongly Democratic. The city as a whole was Republican. The first ward sent a plan to eliminate it from its more than one-fourth (in those days) influence in the board and howled about the danger of having all the members of the board from one part of the city. This refrain has been taken up now. The fact is, those parts of the city that vote the fastest will be as likely to select members of the board as any. The board should be cosmopolitan, representing all parts of the community. With nine members this is possible. With four it is not.

Mr. Miller claims that the feature

of nine members is as ancient as our special charter and therefore as objectionable. The general law was revised in 1889. It had been changed from time to time in particulars. But it was then revised. Again, in 1909, twenty years later, the general school law was revised, though particular features had been changed in the meantime. Now the general school law, as a whole, is vastly different from what it was forty years ago. The fact that this feature of a large board is retained is proof positive that it has been found to have a salutary effect. There could not at any time have been any reason for retaining this feature except the fact that it was worth retaining. Recollect that the general school law is revised by friends of the public schools who are familiar with their needs, by school men.

It is claimed that the change will multiply elections and add expense. This is a mistake. The city is to be divided into 16 polling places. As we are now going, counting the township trustees, we have eight elections in four years. If the change is made we will have nine elections in four years. The sixteen polling places, when elections are held by the city, require the services of six men, or women. As we now are we have one full city election requiring of men, 96
Three elections for 4 years, 288
8 polling places, 6 men, 144
Township trustees, 1 polling place, 3 men, 4 times 12

Total number of men required for the 4 years 252
If the change shall be made we will have one city election 96
There is no requirement as to the number of polling places, but assuming 1 for 800 voters, as in the case of trustees, we have 3 places, 3 men, 4 years 96
The trustees now have 108
count 9 places, 3 men, 4 years 108
Total number required for the 4 years 300
9 members of the board and 3 trustees without pay 4 years 48

We have men paid for services, the same number as now 252
These figures were taken from records in the office of the county clerk.

There is so much bug a boo about supposed increase of cost that these figures may be worth while. As shown by the report of my talk, the present board has, including taxes now being collected, during the last six years, levied and collected \$28,684.69, in excess of the lawful limit for current expenses, and \$95,000.00, for building purposes without asking the tax payers for leave to do so.

I submit there is not a peg for the opposition to stand on, except that the result of the change may change the deposits from one bank to another.

J. P. Lippincott.

THE PARK BOARD.

This spring the park board has set out nearly 300 native forest trees, mostly in Nichols park, and a few in Central park.

Already it has become necessary to start the lawn mower at Nichols park as the grass in the big front yard is getting too high for comfort and welfare.

The fence for the deer park is going up and as soon as the concrete around the corner posts settles the work will be finished and the deer received which will probably the latter part of the present month.

The fence will be ornamental with galvanized steel posts and heavy steel corner posts an within the inclosure will be a small building for the animals. The necessary funds have not yet been secured but it is believed there are enough generous citizens in the city to make up what is lacking.

At Duncan park the drives are being put into shape with rolling and clearing up of the bays and cinders where there are depressions. A light has been ordered for the small pavilion and a man will be sent there Monday to clean up and make things all right.

The Loafers

By WALT MASON.

When spring comes, soft and balmy, with zephyrs flying loose, and clammy weather is canned for future use; when Spring, the genial fairy, brings solace to our souls, and all the world is merry, the loafers leave their holes. They come, the whole blamed slather, the Lord knows where, and on the corners gather, and chew and smoke and swear.

They come the ragged loafers, who'd rather die than work, as useless as the gophers that in the cornfields lurk; as farmer's geese, they sit on steal the goods boxes—their smell dirty, goods boxes—their smell dirty, the peace. The peelers see them sitting all day, a dinky sight, their perches never quitting from morning until night; but do the peelers nab them, or try to get their goats? Ah, no! No cops will grab them, for loafers all have votes. They are as independent as a donkey eating hay, because they shine resplendent upon election day. They'll still defile the pavement and stir up woman's wrath; they never knew what a shave meant, and never took a bath; they shun all sane endeavor, these loafers, with thirsty throats, and they'll abide forever, because they have their votes.

Copyright, 1914 by Adams Newspaper Service

RAILROAD NOTES.

Ed. Schaub has resigned his position in the freight warehouse of the Wabash and his place has been filled by Robert Spainhower.

D. C. Frederick of Springfield, superintendent of transportation of the C. P. & St. L. road, and F. Cone, of Beardstown, superintendent of the Beardstown division of the Burlington, and A. Crane, division civil engineer of the Burlington, all met in this city yesterday to discuss matters of mutual interest to both roads.

Coal trades on the Burlington is almost at a standstill at present and hardly any long "drags" are now seen passing through the city. The miners southward are not working and warm weather has decreased the demand for fuel.

In the Alton station Wm. Shields is taking the place in the baggage room of Frank Nunes, who is sick. Shields was formerly secretary to Supt. Henderson, at Bloomington.

At the Car Shops. Wrecker No. 019 is being overhauled and put in condition for first class business.

The round house is well filled now with tenders. In it are numbers 7, 9, 31, 54, 64, 66 and others. Some are being repaired and others are waiting their turn.

Otto Magnus, boiler maker, is off for a week on a wedding tour which will include Danville and other places.

Michael Clancey has taken a position in the boiler shop. Engine No. 5, switch yard worker, is being looked over and will soon go out to duty.

Engine No. 31 is receiving a considerable lot of minor repairs.

Engine No. 9 is in the machine shop and is stripped to the skin. Her frame has been sent to the blacksmith shop and other parts are receiving attention. She will be about new when she leaves the shop for duty.

Master Mechanic Geo. M. Imgrund spent yesterday in Springfield.

Lawrence Quinlan, who was Charley Pires' helper in the blacksmith shop, has resigned and is now firing in the city light plant.

Dan Doolin has been employed as hammer driver.

Philip Brainer, spring maker in the blacksmith shop, has returned from Franklin, Kansas where he went to attend the funeral of his mother, who was buried last Monday.

An interesting piece of work was being done yesterday under the able supervision of foreman of the blacksmith shop, William Saner and James Dickens, expert brass moulder. With a specially prepared furnace and crucible Mr. Dickens was heating brass to a molten state and they were putting in the brass linings for the boxes of the drive wheels of engine No. 9. It was an intricate and particular piece of work and it was interesting to watch the process. The steel boxes were first heated and the molten brass was poured into its place all in the most careful manner. The steel had to be heated so the whole required the most careful attention and skillful work and all came out in good shape.

The links, blocks, plates and pins of engine No. 7 were all annealed Thursday night and it took an all night job to do it and it was successful. For suitable service these parts have to be made especially hard and the process has already been described in the Journal.

W. J. Doerfler, foreman of the boiler shop, has resigned and has gone to Slater, Mo.

James Tobin, a long time boiler maker, has been promoted to the foremanship of the boiler shop.

Dan Mahaney, who was steam hammer man, has been promoted to heater at the bolt furnace manned by James Dickins.

Local freight caboose is in for an overhauling.

Special car No. 90 used by the officials, is in for a general overhauling and decoration. It is complete with bedroom, sitting room, dining room, kitchen, lavatory and baggage master's office. It will be a daisy when it goes out.

John O'Neil and Joseph Batly, both from Beardstown, have been employed in the boiler shop as boiler makers.

M. J. Clancey, Joseph Lamaster, George P. Darr and John Murray, all of this vicinity, and Frank Davidson, of Havana, have all been employed as boiler makers.

John Griffin has been employed as workman in the machine shop.

The Willing Workers will give a bazaar and chicken pie supper in basement of the new M. E. church at Alexander Saturday evening, April 18.

SO DECEPTIVE

Many Jacksonville People Fail to Realize the Seriousness.

Backache is so deceptive. It comes and goes—keeps you guessing.

Learn the cause—then cure it. Possibly it's weak kidneys.

That's why Doan's Kidney Pills are so effective. They're especially for weak or disordered kidneys.

Here's a Jacksonville case. Mrs. O. Lansing, 802 N. Diamond street, Jacksonville, Ill., says: "I always praise Doan's Kidney Pills when I hear of anyone having kidney complaint. Nothing ever did me back as much good as Doan's Kidney Pills. I took them when I was almost laid up and in a short time they put me on my feet again. I have usually procured Doan's Kidney Pills at Armstrong's Drug Store and I think so highly of them that I am willing to have my statement published."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.—adv.

Model 19

The figure here shows our two-button double breasted sack suit. Soft roll lapels. Four outside patch pockets; collarless waistcoat with or without patch pockets; extremely close fitting double breasted coat, front very soft; no hair cloth. Designed for the man who knows advance styles.

The models we are showing are the models shown in the large cities now.

YOUNG GIRLS ARE VERY CHARMING IN THE CHIC NEW CHECKED SUITS.

ECZEMA BROKE OUT IN WATER BLISTERS

Scatched It So Hard All Sore. On Hand, Then on Legs. Cuticura Soap and Cuticura Ointment Cured in Six Weeks.

748 Congress St., Chicago, Ill.—"My eczema broke out like little water blisters. Each one was full of water and would itch until I would scratch it open, then the water would run out and it would get sore. I first got the eczema on the back of the hand and I scratched it so hard I made it all sore. Then I got it on my legs just above the ankle and above the knee."

"I used what they call Cuticura. Then I used Cuticura Soap and Cuticura Ointment. In all I had the trouble for about two years. One day I saw the advertisement of Cuticura Soap and Ointment in the paper. I wrote for a sample of Cuticura Soap and Ointment and I tried them and then bought some more. Cuticura Soap and Ointment left my skin nice and smooth. I used them for six weeks, and am now cured; the eczema left no marks." (Signed) F. W. Horrich, Oct. 19, 1912.

Although the Cuticura Soap and Ointment are most successful in the treatment of affections of the skin, scalp, hair and hands, they are also most valuable for everyday use in the toilet, bath and nursery because they promote and maintain the health of the skin and hair from infancy to age. Cuticura Soap (25c) and Cuticura Ointment (50c) are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

OUR VANS

are up to date, commodious and well padded. Our employees are efficient and careful and understand packing and moving.

SUBURBAN MOVING is a specialty of ours. We store, pack and ship furniture and move pianos, satisfying the most particular people.

Let us give you an estimate on moving your household goods.

Have Courage.
If there is one thing more than an-
other that will cause discouragement
it is indigestion, but you should
bear in mind that hundreds have
been cured, permanently cured, and
at a very small expense. Mrs. E.
Forster, Lima, Ohio, writes: "I was
troubled for a year or more with in-
digestion. Chamberlain's Tablets af-
forded the first real relief I obtain-
ed, and by taking two bottles of
them my whole system was put into
a healthy condition." For sale by all
dealers.—Adv.

Agricultural News Valuable To Farmers

THE CORN BELTER

Edited by the Department of Publications, University of Illinois.

Regular Weekly Feature of the Jacksonville Journal

FOR IMPROVEMENT OF SOILS OF ILLINOIS

BEST AND MOST PROFITABLE METHODS OF TREATMENT.

If Soil Is Acid Ground Limestone Should Be Applied—Good Four, Five, or Six Year Rotation of Crops Should Be Adopted.

(By Professors Hopkins, Mosier, Pettit and Readhimer in the Knox County Soil Report, No. 6).

The best and most profitable methods for the permanent improvement of the common soils of Illinois are as follows:

(1). If the soil is acid, apply at least two tons per acre of ground limestone, preferably at times magnesium limestone, which contains both calcium and magnesium and, has slightly greater power to correct soil acidity, ton for ton, than the ordinary calcium limestone; and continue to apply about two tons per acre of ground limestone every four or five years. On strongly acid soils, or in preparing the land for alfalfa, five tons per acre of ground limestone may well be used for the first application.

(2). Adopt a good rotation of crops, including a liberal use of legumes, and increase the organic matter of the soil either by plowing under the legume crops and other crop residues (straw and corn stalks), or by using for food and bedding practically all the crops raised and returning the manure to the land with the least possible loss. No one can say in advance what will prove to be the best rotation of crops, because of variation in farms and farmers, and in prices for produce, but the following are suggested to serve as models or outlines:

First year, corn.
Second year, corn.
Third year, wheat or oats (with clover or clover and grass).

Fourth year, clover or clover and grass.

Fifth year, wheat and clover or grass and clover.

Sixth year, clover or clover and grass.

Of course there should be as many fields as there are years in the rotation. In grain farming, with small grain grown the third and fifth years, most of the coarse products should be returned to the soil, and the clover may be clipped and left on the land (only the clover seed being sold the fourth and fifth years); or, in live stock farming, the field may be used three years for timothy and clover pasture and meadow if desired. The system may be reduced to a five-year rotation by cutting out either the second or the sixth year, and to a four year system of omitting the fifth and sixth years.

With two years of corn, followed by oats with clover seeding the third year, and by clover the fourth year, all produce can be used for food and bedding of other land is available for permanent pasture. Alfalfa may be grown on a fifth field for four or eight years, which is to be alternated with one of the four; or the alfalfa may be moved every five years, and thus rotated over all five fields every 25 years.

Other four year rotations more suitable for grain farming are:

Wheat (and clover), corn, oats, and clover, or corn (and clover), cowpeas, wheat, and clover. (Alfalfa may be grown on a fifth field and rotated every five years, the hay being sold).

Good three year rotations are:

Corn, oats and clover; corn, wheat, and clover; or wheat (and clover), corn (and clover), and cowpeas, in which two clover crops and one regular crop of legumes are grown in three years.

A five year rotation of (1) corn (and clover), (2) cowpeas, (3) wheat, (4) clover, and (5) wheat (and clover) allows legumes to be seeded four times, and alfalfa may be grown on a sixth field for five or six years in the combination rotation, alternating between two fields every five years, or rotating over all the fields if mowed every six years.

To avoid clover sickness, it may sometimes be necessary to substitute sweet clover or alsike for red clover in and about every third rotation, and at the same time to discontinue its use in the cover crop mixture. If the corn crop is not too rank, cowpeas or soybeans may also be used as a cover crop (seeded at the last cultivation) in the southern part of the state, and, if necessary to avoid disease, these may well alternate in successive rotations.

For easy figuring it may well be kept in mind that the following amounts of nitrogen are required for the produce named:

1 bushel of oats (grain and straw) requires 1 pound of nitrogen.

1 bushel of corn (grain and stalks) requires 1½ pounds of nitrogen.

1 bushel of wheat (grain and straw) requires 2 pounds of nitrogen.

1 ton of timothy requires 24 pounds of nitrogen.

1 ton of clover contains 40 pounds of nitrogen.

1 ton of cowpeas contains 43 pounds of nitrogen.

1 ton of average manure contains 10 pounds of nitrogen.

The roots of clover contain about half as much nitrogen as the tops, and the roots of cowpeas contain about one-tenth as much as the tops. Soils of moderate productive power will furnish as much nitrogen to clover (and two or three times as much to cowpeas) as will be left in the roots and stubble. For grain

crops, such as wheat, corn and oats, about two-thirds of the nitrogen is contained in the grain and one-third in the straw or stalks.

AGRICULTURAL NOTES.

Bureau County Hires Advisor.

The Bureau County Agricultural Improvement association has engaged Charles J. Mann, Gilman, son of Frank I. Mann, as agricultural advisor. Mr. Mann is a graduate of the University of Illinois college of agriculture, where he specialized in soil work. After graduating, he spent eight years in soil survey work for the United States department of agriculture. For the last two years he has assisted in managing his father's farm in Iroquois county. It is probable that the advisor's headquarters will be at Princeton.

Tazewell Co. Corn Breeders Organize.

The Reid's Yellow Dent Seed Corn society of Tazewell county was organized at Pekin, Ill., March 10. This association has for its purpose the improvement of this variety in Tazewell county and the selling of seed similarly as the Percheron society of the county sells horses. The following officers were elected: President, C. J. Sommer, Pekin; vice president, C. S. Cloninger, Morton; secretary, A. B. Kennel, Minier; treasurer, Rudolph L. Steiger, Delavan. At Work for Export in LaSalle Co. The Better Farming association of LaSalle county was formed at a well attended meeting of farmers in Ottawa, March 11. It was decided to assess each member \$10 a year for three years. One hundred farmers signed such agreement. The LaSalle county board of supervisors will be asked for \$5,000 to aid the work of the association. T. W. Edmond, Utica, was elected president; Frank L. Beach, Dayton, vice president; J. Ward Smith, Ransom, secretary; and B. E. Strait, Ottawa, treasurer.

Pertinent Sayings of J. E. Poole of the Live Stock World to University of Illinois Students.

"There is a great deal of misconception on the part of the public on how markets are organized. Buyers do not get together, as some men have stated, and determine beforehand the prices they will pay for the day. The amount of misinformation circulated by the metropolitan papers is astounding."

"The organization of markets is modern and remarkably efficient. All organized except the growers and shippers. (To his mind they ought to be organized)."

"In the live stock world the crook can operate but once—he cannot go to another state and do the same thing—the organization is so perfect that he does not even get started again."

"There are fourteen great markets in the United States and not a dollar goes astray. What a man realizes for his stuff that he will get. Prices may not suit him, but having sold he will get without fail the amount due him."

"Packers have an effective organization. It is invisible, but nevertheless effective. Many think they control prices. If intentions constituted a crime they would be guilty."

"The speculator is a useful element in that he is a competitor of the packer."

"Speculation is a dangerous game, but some apparently make money at it."

"Three million dollars is frequently a day's business in Chicago markets and yet within an hour after closing the proceeds are on the way to the country and not a dollar goes astray."

"One of the great mistakes of shippers is selling on 'bulges' i. e., when prices are up for a time to ship in a lot of stuff. Naturally the market is glutted and prices melt away."

"That Jar of MUSTEROLE was right there to give relief and comfort."

That Jar of Musterole On the Bath-Room Shelf

It's relieved pain for nearly every one in the family. When little Susie had the croup, when Johnny got his feet wet and caught cold, when father sprained his knee, when G-ranny's rheumatism bothered her—

That jar of MUSTEROLE was right there to give relief and comfort.

MUSTEROLE is a clean, white ointment, made with oil of mustard. It will not blister like a mustard plaster.

Quick relief for Sore Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds on the Chest (it prevents Pneumonia). Nothing like MUSTEROLE for croupy children.

In 25¢ jars and 50¢ jars, and a special large hospital size for \$2.50. Accept no substitute.

If your druggist cannot supply you, send 25¢ or 50¢ to the MUSTEROLE Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid.

S. J. Buchanan, Lowellville, Ohio, says: "We have been using Musterole for two or three years past and find it very good. It is always in our medicine cupboard."

MOST BANKERS SAY TENANT CUSTOMERS ARE SATISFACTORY

Three Fourths of Replies to Question Asked Bankers Emphasized Satisfaction of Tenants

(By Charles Leslie Stuart, University of Illinois. In an investigation for the State Bankers' association.)

One question asked the bankers to characterize their experience with tenant customers. Three-fourths of the replies emphasize the satisfaction of tenants, one in eleven pronounced them unsatisfactory, while the remaining fifteen per cent granted them to be only fair. Since this question is on a different basis from the one inquiring into the promptness with which farmers meet their obligations, (1) no comparison between tenants and other farmers is possible from the data on hand. The following table of percentage shows the variation in the tone of answers from the different sections of the state:

Condition	District	The
Prosperous	1	23
Medium	2	13
Unsatisfactory	3	28
Not prosperous	4	28

The decline in a satisfactory tone of tenants as bank customers corresponds to the latitude, as does the promptness of all farmer bank customers. The difference between northern Illinois and southern Illinois in this respect is extremely marked.

In reply to the question whether the tenants are prosperous the bankers' returns show the following percentage of variations by districts:

Condition	District	The
Prosperous	1	23
Medium	2	13
Unsatisfactory	3	28
Not prosperous	4	28

The prosperity of central Illinois tenants appears to be about the same as the average for the tenants of the state. Northern Illinois, however, shows a stronger tendency in the direction of tenant prosperity than the rest of the state, while southern Illinois pulls the average down.

The parallelism that appears to exist between the prosperity of tenants and their satisfactoriness as bank customers is close, but not surprising. A profit from one's undertaking is one of the prime essentials to his being a satisfactory bank customer. The fact that this "sloping southward" on the part of the financial integrity of tenants is an accompaniment to other conditions, varying in a corresponding manner, is suggestive. During the period since 1880 the proportion of tenant farms has practically doubled in northern Illinois, and increased to half again as many in central Illinois, while in southern Illinois the proportion has practically remained stationary. Thus tenants have been multiplying most rapidly where they are the most prosperous. In northern Illinois, moreover, the greater emphasis upon cattle in the farming of both owners and tenants has probably resulted in tenant farming being less hurtful to the productiveness of the soil. In central Illinois, while less conserving methods of agriculture have doubtless been practiced, the natural fund of fertility has been so great as to postpone its exhaustion. Southern Illinois has not been so much blessed in either of these respects as the other sections. When viewed in this light, one is tempted to say that economic forces have regard to the soil "reserves," for less sound types of agriculture appear to be given most rein only in the districts most able to withstand them.

With the exception of one special implement the work may be done with the tools in ordinary use. In fact, all that is needed is a saw, a mallet of some sort for pounding the grafting tool into the stub, and a very sharp knife for cutting the scions. A good whetstone should be carried and the knife should be whetted frequently. The illustration of the implement used show the grafting tool. The one shown was made at a blacksmith shop. Tools somewhat similar to this are advertised in the fruit papers at this time of year. A good one should combine a chisel about three and one-fourth inches wide, which will split the largest limb that should be grafted, a straight wedge like the one illustrated, and a hook so that when not in use the tool may be hung over a limb.

The actual operation of making a cleft graft is simple. The limb to be grafted is sawed a third of the way through from below, about an inch further out on the point where it is to be sawed off. The limb may then be sawed through from above, and if the proper care is taken the bark on the stub will not be split or torn when the branch falls. The stub is then split vertically with the chisel part of the grafting tool, the chisel is withdrawn, and the cleft is held open with the wedge. The scions are to be inserted in the stub—one on each side of the cleft—in such a manner that a bud lies just outside the side of the cleft about a quarter of an inch back of the end of the stub. The scions are to point slightly outward so that the cambium layers will be sure to cross. In order to afford as much surface for contact as possible between the scion and the stub the scion is cut to a wedge about one and one-fourth inch long. This cut should be started a little above the bud, and, since the cambium layer on the outside must be tightly held, the bud side of the wedge is made a little thicker than the other side. Each section should have three buds.

After the scions are inserted the grafting tool is withdrawn, and the exposed surface of the stub and the tips of the scions are covered with grafting wax. The bud next to the stub may be covered with wax without endangering its growth. To make grafting wax melt together

four pounds of rosin, two pounds of beeswax, and one pint of linseed oil. Stir, and pour into cold water. After cooling oil the hands and pull the wax like taffy. Make it into rolls or balls and lay away in oiled paper until ready for use.

After the first year the tree should be kept free from water sprouts. The young grafts should be pruned so that they will branch out close to the stub.

Experience makes a good farmer, but sometimes it takes a farm to get it.

When Adam was baching in Eden, The water all ran in the brook. But therefore should you keep on refusing to Run it into the house to cook?

WITHDRAWALS INCREASE.

London, April 16.—At a meeting of the stock exchange share holders today it was announced that owing to the depression in business 150 members had not sought re-election. This is fifty more withdrawals than last year.

ESSENTIAL FEATURES IN TREE GRAFTING

TOP GRAFTING MORE COMMONLY PRACTICED ON APPLE TREES.

Essentials of Grafting are: Cambium Layers Must Cross, Both Scion and Stock Must Be Vigorous, and Exposed Surfaces Must Be Covered With Grafting Wax.

(W. A. Ruth, University of Illinois). Top grafting is more commonly practiced on the apple than on other fruits. It consists in the insertion of scions of one variety into the branches of trees of another variety, in such a manner that the buds on the scions can grow.

The three essential features in grafting are as follows: First, the cambium layers of the stock and scion must cross—the cambium layer is a layer of cells between the wood and the bark—second, the scions must be entirely dormant and both scion and stock must be vigorous; third, the exposed surfaces must be covered with grafting wax as soon as the graft is made. The best time to graft is the early spring before growth starts. An early start means a good growth the first season.

A tree may be grafted over for the sake of the individual tree or to improve the yield of the tree around it. Unless conditions are unusually favorable a blooming time orchard of mixed varieties set more fruit than solid blocks, because of the superiority of foreign pollen in fertilizing the flowers. Grafting over one tree in the center of every nine will provide the necessary cross pollination three or four years after the grafts are made. The new variety should come into bloom at the same time as the variety it is to pollinize, or a day or so earlier. Jonathan and Duchess are good varieties to graft on Ben Davis for this purpose.

The cleft graft is quite commonly used for top grafting. Part of a branch is sawed off, leaving a stub not more than a foot long. The stub is split down the center and a scion is inserted on each side in such a manner that the tension keeps the cambium layers of stock and scion in contact. Limbs less than one inch in diameter should not be grafted, because the split stub does not spring together strongly enough.

The previous summer's growth is used for scions. Vigorous ones can be cut from young trees or water sprouts. They should be between 3-16 and 5-16 of an inch in diameter. The material for the scions may be gathered early in the spring and used at once or kept in cold storage, or if conditions are favorable, in the cellar.

In selecting the limbs to graft care should be taken with varieties like the Ben Davis, which is easily scalded, to choose those which are not directly exposed to the sun. Vertical limbs do not sun scald as easily as horizontal limbs. As much protecting foliage should be left as possible. Enough grafts should be made and they should be so distributed that a well shaped tree will result, but it is desirable to make only part of the grafts the first year, making the rest of the grafts the second year, and cutting off all but the grafted limbs the third.

With the exception of one special implement the work may be done with the tools in ordinary use. In fact, all that is needed is a saw, a mallet of some sort for pounding the grafting tool into the stub, and a very sharp knife for cutting the scions. A good whetstone should be carried and the knife should be whetted frequently. The illustration of the implement used show the grafting tool. The one shown was made at a blacksmith shop. Tools somewhat similar to this are advertised in the fruit papers at this time of year. A good one should combine a chisel about three and one-fourth inches wide, which will split the largest limb that should be grafted, a straight wedge like the one illustrated, and a hook so that when not in use the tool may be hung over a limb.

The actual operation of making a cleft graft is simple. The limb to be grafted is sawed a third of the way through from below, about an inch further out on the point where it is to be sawed off. The limb may then be sawed through from above, and if the proper care is taken the bark on the stub will not be split or torn when the branch falls. The stub is then split vertically with the chisel part of the grafting tool, the chisel is withdrawn, and the cleft is held open with the wedge. The scions are to be inserted in the stub—one on each side of the cleft—in such a manner that a bud lies just outside the side of the cleft about a quarter of an inch back of the end of the stub. The scions are to point slightly outward so that the cambium layers will be sure to cross. In order to afford as much surface for contact as possible between the scion and the stub the scion is cut to a wedge about one and one-fourth inch long. This cut should be started a little above the bud, and, since the cambium layer on the outside must be tightly held, the bud side of the wedge is made a little thicker than the other side. Each section should have three buds.

After the scions are inserted the grafting tool is withdrawn, and the exposed surface of the stub and the tips of the scions are covered with grafting wax. The bud next to the stub may be covered with wax without endangering its growth. To make grafting wax melt together

four pounds of rosin, two pounds of beeswax, and one pint of linseed oil. Stir, and pour into cold water. After cooling oil the hands and pull the wax like taffy. Make it into rolls or balls and lay away in oiled paper until ready for use.

After the first year the tree should be kept free from water sprouts. The young grafts should be pruned so that they will branch out close to the stub.

NEW BOOKS AT THE PUBLIC LIBRARY.

The following list of books have been added to the Public Library and will go into circulation Saturday, April 18.

Literature.

Brown, S. J.—Readers' guide to Irish fiction.

A classified list of novels juvenile stories and folk tales dealing with Irish subjects. Each title is accompanied by a descriptive note.

Brundiere, Ferdinand—Honore de Balzac.

This is the second volume of a series which aims to do for French literature what has already been done for English men of letters.

Each volume comprises an exhaustive biographical and critical study of the subject by the writer best fitted for the task of presentation.

The author of this book on Balzac is a member of the French Academy, editor of Revue des Deux Mondes and author of numerous critical and historical works on literature.

He is admirably fitted to deal with the founder of French realistic fiction.

Fairless, Michael—The Roadmender.

Hofmannsthal, Hugo von—Electra.

Hofmannsthal's Electra is remarkable if only because it has cast its spell over one of the greatest living actresses, perhaps the greatest living composer and the greatest critic in England.

Sophocles—Oedipus, Oedipus at Colonus, Antigone, Ajax, Electra, Trachiniae.

Philoctetes, with an English translation by Francis Storr.

These two volumes of Sophocles plays belong to the Loeb Classical Library.

Useful Arts.

Colvin, F. H.—Machine shop primer.

Klickmann, Flora—Home art book of fancy stitchery.

Klickmann, Flora—The craft of the crochet book.

Krullish—Medical handbook.

Fiction.

Galsworthy—The dark flower.

Why Is It a Favorite?

There are good reasons why Chamberlain's Cough Remedy is a favorite with the mothers of young children.

Read what one of them says of it: "There could be no better medicine than Chamberlain's Cough Remedy. My children were all sick with whooping cough. One of them was in bed, had a high fever and was coughing up blood. Our doctor gave them Chamberlain's Cough Remedy and the first dose eased them, and three bottles cured them," says Mrs. R. A. Donaldson, of Lexington, Miss.

SPANISH WAR VETERANS ORGANIZATION TEN YEARS OLD

Illinois Department Now Includes Fifty-seven Camps—Next Encampment in June.

The United Spanish War Veterans association, the official organization of soldiers and sailors of the Spanish American war and Philippine insurrection is ten years old today. Prior to April 18, 1904 there was in existence three separate organizations. The Spanish American War Veterans, the Spanish War Veterans and the Service men of the Spanish American War. On that date the Commanders-in-chief of these three met at Indianapolis and signed articles of amalgamation, and formed the United Spanish War Veterans. Since then it has absorbed the Legion of Spanish War Veterans and the Veteran Army of the Philippines. Since then it has grown from a loose organization of about 5000 men to a strong compact body of 800 camps with 40,000 members. Camps are located in every state of the Union and in Alaska, Honolulu, Manila, Cuba, Canada, and the Canal Zone. There are many members living in this vicinity.

The Department of Illinois is one of the strongest in the organization. It has been brought to its present state of efficiency from a loose organization by the persistent work of its department officers. Ten years ago there were 15 camps with less than 800 members. Today there are 57 camps with an active membership of 3000 organized in 43 cities and more are added each week. The Department Commander is Carl McKee of Joliet and the Adjutant is Martin Sipple of Elgin. Headquarters are at Elgin.

The Department of Illinois has had many of the laws affecting soldiers amended so that they now include them. They were originally passed to include soldiers of the rebellion only. The civil service preference bill, now affecting civil war soldiers only, was amended by the last legislature by a unanimous vote but vetoed by Gov. Danne as being unconstitutional.

The next Department Encampment will be held at East St. Louis on June 18, 19, and 20. It is expected that 1000 men and women will attend. The camp at East St. Louis is making great preparation to entertain. National headquarters of the U. S. W. V. are at Washington, D. C.

Unanimous verdict; never more desirable spring clothing than knoles.

FOURTH WARD REPUBLICANS HELD PRIMARY ELECTION

George S. Rogerson Renominated for Member of the Board of Education—Has Filled Office Acceptably.

The fourth ward primary called by the Republican committeemen J. H. Danksin and William Kastrup was held at the Court House Friday night. The meeting was called to order by Andrew Russel, and J. H. Danksin was chosen chairman with Edward Kastrup secretary. The only business before the primary was the nomination for member of the board of education and G. S. Rogerson was named. Brief remarks were made by S. A. Fairbank, W. J. Wood, Andrew Russel and J. H. Brown.

The nomination of Mr. Rogerson was expected as he has filled the office acceptably for several terms. During his membership in the board Mr. Rogerson has devoted all needed time to the school work and has sought in various ways to advance the interest of not only the fourth ward school, but the whole system as well.

COLORED CITIZENS HELD MEETING AT BETHEL CHURCH

Resolutions Adopted Declare in Favor of Present School System—Will Aid With Clean-up Week.

The Jacksonville civic league, an organization embracing members from all the colored people of the city, met last evening in goodly numbers at Bethel A. M. E. church with a general gathering of the colored people of the city. The best of feeling prevailed and several animated speeches were made.

The prime object of the meeting was to consider the questions to be decided at the polls Tuesday and to co-operate with the people who are making an effort for cleaning up the city.

A special committee was named to prepare resolutions in accordance with sentiments of a majority of the people present and the substance of their report was that they opposed a change from the present school law or manner of choosing members of the board of education regardless of politics regarding fitness only; that they were opposed to anything that favored of segregation in the public schools, and demanded recognition in the choice of a governor for the new 8th grade building. A lively discussion regarding the report followed and it was adopted unanimously.

S. W. Nichols, honorary president of the league, was present and spoke on the subject. He was opposed to segregation and told of the efforts made years ago to get the children of all races into the public schools and urged the parents to see to it that their children were the best behaved and that the colored people in general were best citizens, most faithful as employees and most worthy to be trusted. Regarding the proposed change in the school law he was not there to make an address or offer any opinion.

Speeches were made by Rev. Messrs. Muse, Doolittle, Russell and Shaw; also Messrs. E. D. Hayden, Ed Mallory, John Dunn, Dr. Kennibrow and others.

SPRINGFIELD UNDER THE GENERAL SCHOOL LAW.

(Contributed)

Springfield is feeling effects of going under the general school law. The capital city has a high-school building that has a capacity of about seven hundred students. The enrollment has increased to such an extent within the last few years that the accommodations in the building are not sufficient to care for over one thousand students now enrolled.

All the citizens who had the welfare of the schools at heart agreed that a new building was necessary, but the restrictions of the general law prevented what easily could have been obtained under their old special charter. The general law provides that first a petition to build signed by five hundred legal voters of the district be presented to the school board before the question could be submitted to a vote. Second, the law requires again that the question then be submitted to a vote and to receive a majority of all the votes cast in order to carry. The signers to the petition were easily secured and the proposition to build was as easily defeated in the election that followed. Springfield is now regretting the surrender of their old charter which contained a provision similar to that of Jacksonville permitting school buildings to be erected without submitting the question to a vote.

Politics has entered into school affairs of Springfield in a way never heard of before under the old charter. Just before the last election for school board members, one of the candidates was approached by a prominent politician of that city with a proposition to deliver a certain organized vote to such candidate if she would pledge herself to use her best efforts to turn out a certain class of teachers now in the schools and strive to prevent the appointment any others of the same class. It seems that instead of eliminating politics in the schools that the general school law has very much intensified such conditions there. The people there, from accounts in the daily papers, are very much wrought up over these matters and there is a likelihood that the Springfield schools will in the future be the battleground for the worst kind of politics.

Cadmus.

FEDERATION OF ILLINOIS COLLEGES

ANNUAL MEETING AT BLOOMINGTON APRIL 27-28.

Topics of Vital Interest to Schools and Students to be Discussed by Educators—President C. H. Rammelkamp Among the Speakers.

The tenth annual meeting of the Federation of Illinois colleges and universities will be held in Bloomington April 27-28 and President Rammelkamp and President J. R. Harker expect to attend from this city. There are twenty-four schools in the federation and the purpose of the meeting is to formulate plans which will further the cause of education in its every department. One delegate, consisting of a faculty member of each school is expected to be in attendance.

First Evening's Program.

On Monday, April 27, dinner will be served at 6:15 o'clock in Grace M. E. church and the topic to be discussed is "Educational Relationships." The address of welcome will be by President Theodore Kemp of Wesleyan and the following addresses will be given:

"The College and the State"—Supt. F. G. Blair.
"The College and the University"—Dean K. C. Babcock.
"The College and the Normal School"—Pres. David Felmley.
"The College"—Pres. John S. Nollen.

Important Discussion.

The morning session Tuesday will commence at 8:30 and there will be a report of the secretary-treasurer. There will be a report of the committee on "Relation of the Colleges of the Federation to State Education" by the chairman, Pres. C. H. Rammelkamp of Illinois college. This will be followed by a general discussion. In view of the fact that the certifying bill goes into effect on July 1 and that the state superintendent of public instruction has asked the federation to recommend a definition for a "recognized college" as contemplated in that bill, a very thorough discussion of the report is desired.

On Tuesday afternoon there will be reports of committees and the annual election of officers. There will also be discussed a number of topics of vital interest to the colleges, as follows:

"The relation of the colleges to the educational survey of the state."
"Student loss after the freshman year."
"The Illinois Inter-Collegiate Athletic Association."
"College Entrance Requirements."
"Moral and religious qualifications of teachers and the effect of personal habits of teachers on the rating of college."
"The junior college and its relation to the federation."
"The adjustment of the curriculum to meet changed demands; vocational guidance in the colleges."
"How may the spiritual life of the students be deepened?"

Schools in Federation.

The following are the schools in the federation:

Augustana, Rock Island; Blackburn, Carlinville; Carthage, Carthage; Eureka, Eureka; Greenville, Greenville; Harding, Abingdon; Illinois Wesleyan, Bloomington; James Millikin university, Decatur; Knox college, Galesburg; Lake Forest, Lake Forest; Lincoln, Lincoln; Lombard, Galesburg; Loyola university, Chicago; Monmouth, Monmouth; Northwestern, Naperville; Northwestern university, Rockford; Woman's college, Rockford; St. Viator, Bourbonnais; Shurtleff, Upper Alton; University of Chicago; Wheaton, Wheaton; William and Vashti, Alton.

ANOTHER SHIPMENT OF GAGE HATS JUST RECEIVED AT HERMANS.

WITH THE SICK.

Frank Nunes, baggage man at the local Chicago & Alton passenger station, is a patient at Our Saviors' hospital, suffering with sciatic pneumonia. During his absence his position is being filled by William Shields.

Miss Marie Frye and Miss Elizabeth Davis of Arenzville are expected in the city today for a visit with the mother of the former, Mrs. Lulu Frye, at Dr. Day's hospital. Mrs. Frye is doing nicely.

Mrs. G. A. Moore of East State street is spending a few days in Kansas City.

Mrs. C. E. Delaplaine has returned from a week's visit with friends in Barry.

SEEKS FOR MISSING MAN.

County Clerk Boruff has received a letter from A. S. Cummings of Bethany, Mo., seeking for information about William Owings. The letter is as follows:

"Can you give me any information concerning Willie Owings who was formerly a resident of your county, if he is still living, or the date of his death if he is dead? Or can you give the address of any person who can give the desired information? William Owings executed some instruments before William Thomas, a notary public of Morgan county, Illinois, in the years 1877 and 1883. He figured somewhat in land transactions in Harrison county, Missouri, nearly sixty years ago."

GET READY FOR TUESDAY.

Have your rubbish ready for Tuesday morning as wagons will not go on the same street more than once.

CLEAN-UP COMMITTEE.

EVERYTHING IS READY FOR HIGH SCHOOL MEET.

Jacksonville, Springfield and Beardstown Will Compete This Afternoon.

If the weather man permits the Tri-City Athletic meet between Jacksonville, Springfield and Beardstown will be pulled off this afternoon on Illinois college field. The first race will start promptly at 1 o'clock and the contests promises to be fast ones from start to finish. Each school is counting on a victory and with this in mind there will not be a slow pace anywhere.

The committee in charge has put the track in tip-top condition and so old heads are predicting, that, notwithstanding the earliness of the season, there will be some records broken. Both teams will arrive in the city this morning.
